MEMORANDUM FOR: Assistant for Information/DDA

FROM:

[REDACTED]
Acting Director of Security

SUBJECT: Title IV - Proposed Charter Legislation

1. The Office of Security has reviewed the latest draft of Title IV, forwarded by your office on 27 January 1978, and is concerned that this Title fails to establish any basic investigative charter for the Agency. It is urged that every effort be made to have a provision added similar to the language of the new Executive Order 12036, Section 1-811, granting the Central Intelligence Agency authority to:

"protect the security of its installations, activities, information and personnel by appropriate means, including such investigators of applicants, employees, contractors and other persons with similar associations with the CIA as are necessary."

2. It is also believed that Section 404(e), page 5, last sentence, should be modified as follows, so as to ensure the Director's ability to carry out his duties (set out in Title I) to protect sources and methods and to establish security standards for the management and handling of information and material relating to intelligence sources and methods:

"The termination of the employment of any officer or employee under authority of this paragraph shall not affect the right of such officer or employee to seek or accept employment elsewhere in the Government not involving access to classified intelligence information if declared eligible for such employment by the United States Civil Service Commission.

3. The same revision is also suggested for Title I,
Section 108(m), page 19.
